PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with 2 years of experience turning complex datasets into strategic business intelligence dashboards. Proficient in SQL, Tableau, Power BI, Python, Pandas, and Excel data modeling.

EDUCATION

B.S. in Statistics and Data Science, Mumbai University (2020 - 2023)

TECHNICAL SKILLS

Python, SQL, Tableau, Power BI, Pandas, NumPy, Excel, Data Analysis, Data Visualization, Matplotlib, Seaborn, ETL, Statistics

PROFESSIONAL EXPERIENCE

Business Data Analyst | FinMetrics Global (2023 - Present)
• Created 20+ executive dashboards in Tableau and Power BI tracking revenue KPIs and user retention.
• Formulated complex SQL queries (CTEs, Window Functions, Joins) on Snowflake and PostgreSQL.
• Automated weekly reporting pipelines using Python (Pandas, NumPy, OpenPyXL), saving 12 manual hours/week.
• Conducted root-cause data audits to maintain 99.8% data integrity across ETL pipelines.

Data Analyst Trainee | InsightHub Analytics (2022 - 2023)
• Executed exploratory data analysis and customer segmentation using Python and Matplotlib.
• Built financial modeling spreadsheets with advanced Excel formulas and macros.

KEY PROJECTS

• E-Commerce Sales Performance Dashboard: Interactive Tableau dashboard analyzing $5M in omnichannel sales.

• Healthcare Patient Flow Forecasting: Time-series analysis model predicting hospital bed occupancy.
