PROFESSIONAL SUMMARY

Accomplished DevOps and Cloud Infrastructure Engineer with 4 years of experience orchestrating AWS cloud architecture, Kubernetes clusters, Docker microservices, and automated CI/CD pipelines.

EDUCATION

B.Tech in Computer Engineering, JNTU Hyderabad (2017 - 2021)

TECHNICAL SKILLS

AWS, Docker, Kubernetes, CI/CD, Terraform, Jenkins, Linux, Ubuntu, Nginx, Python, Bash, Git, Prometheus, Grafana

PROFESSIONAL EXPERIENCE

DevOps Infrastructure Engineer | CloudScale Networks (2021 - Present)
• Provisioned and managed AWS infrastructure (VPC, EC2, EKS, RDS, S3) using Terraform Infrastructure as Code.
• Deployed production Kubernetes (k8s) clusters and configured Helm charts for microservices.
• Automated continuous integration and deployment pipelines using Jenkins, GitHub Actions, and Docker.
• Implemented centralized logging and alerting with Prometheus, Grafana, and ELK stack.

Linux Systems Administrator | Nexa Hostings (2020 - 2021)
• Managed fleet of 150+ Ubuntu and CentOS servers, configuring Nginx, SSL certificates, and firewall rules.
• Wrote automated maintenance scripts in Bash and Python.

KEY PROJECTS

• Zero-Downtime EKS Deployment: Automated blue-green deployment pipeline for high-traffic financial app.

• Disaster Recovery Infrastructure: Automated Terraform modules for multi-region AWS failover.
